

“Learning to Create the Future”

Online Classes that are Fun, Exciting, and Educational !

Do you like Video games ?

We can teach you how to make your very own video game !

Open to students in grades 2-5 who are interested in learning computer programming in a fun and kid-friendly online environment. Our methods integrate both programming and game design, giving students a fun and well-rounded understanding of how to utilize technology to create. We combine world-class curricula and tools, with an exciting education model that makes learning programming a fun and supportive group experience.

Make your own games with characters from Minecraft!
