“Learning to Create the Future”

Online Classes that are Fun, Exciting, and Educational!

Do you like Video games?

We can teach you how to make your very own video game!

Open to students in grades 2-5 who are interested in learning computer programming in a fun and kid-friendly online environment. Our methods integrate both programming and game design, giving students a fun and well-rounded understanding of how to utilize technology to create. We combine world-class curricula and tools, with an exciting education model that makes learning programming a fun and supportive group experience.

Create your own video games from the comfort of your own home!
