Nature is all around us. Anytime is a good time to go outside and discover the plants and animals that share your world. Go on a scavenger hunt around your neighborhood, or even explore your schoolyard or own backyard. Use your senses to discover the natural world. How many of these can you find?

- A spider web
- A chewed leaf
- A crawling bug
- A flying bug
- A woodpecker hole
- A bird nest
- A place where a bird would bathe
- An entrance to an underground home
- Something growing that is not green
- Something flying, floating, or falling
- The sound of running water
- The sound of a bird calling
- The sound of a human moving
- The sound of a dog barking
- The sound of leaves rustling
- Something that smells stinky
- Something you’ve never smelled before
- Something that smells good
- Something that feels warm
- Something that feels cold
- Something that feels squishy
- Something that feels bumpy
- Something that feels soft
- Something that feels smooth
- A weather condition that you can feel (wind, rain, sunshine...)
- A tree that feels too big to put your arms around

What other interesting things did you find?
