Mission Statement: THPRD's mission is to provide natural areas, high-quality park and recreational facilities, services and programs that meet the needs of the diverse communities it serves.

Equity & Inclusion Statement: We acknowledge that all U.S. government agencies have roots stemming from systemic racism and oppression, including THPRD. We seek to hold ourselves accountable for our role in perpetuating these systems and are committed to taking action to create meaningful change. We aspire to bring people together, to be a welcoming and inclusive park & recreation district, and to live our values of advancing social and racial equity.
